

§ 20-183.4B. Application for license; duration of license; renewal of mechanic license.

(a) Application. – An applicant for a license issued under this Part must complete an application form provided by the Division. The application must contain the applicant's name and address and any other information needed by the Division to determine whether the applicant is qualified for the license. The Division must review an application for a license to determine if the applicant qualifies for the license. If the applicant meets the qualifications, the Division must issue the license. If the applicant does not meet the qualifications, the Division must deny the application and notify the applicant in writing of the reason for the denial.

(b) Duration of License. – A safety inspection mechanic license expires four years after the date it is issued. An emissions mechanic inspection license expires two years after the date it is issued. A safety inspection station license, an emissions inspection station license, and a self-inspector license are effective until surrendered by the license holder or suspended or revoked by the Division.

(c) Renewal of Mechanic License. – A safety or an emissions inspection mechanic may apply to renew a license by filing an application with the Division on a form provided by the Division. To renew an emissions inspection mechanic license, an applicant must have successfully completed a four-hour emissions refresher course approved by the Division within nine months of applying for renewal. Successful completion requires a passing score on a written test and on a hands-on test in which the student is required to conduct an emissions inspection of a motor vehicle. (1993 (Reg. Sess., 1994), c. 754, s. 1.)
